

1. 網格數量與網格間距

網格數量:

$$N = 81 \times 81$$

網格間距:

$$\begin{cases} \Delta y = \frac{2R}{80} = \frac{2 \cdot 40 \mu\text{m}}{80} = 1 \mu\text{m} \\ \Delta z = \frac{R}{80} = \frac{40 \mu\text{m}}{80} = 0.5 \mu\text{m} \end{cases}$$

網格面積元素:

$$\Delta A = \Delta y \cdot \Delta z = 0.5 \mu\text{m}^2$$
